SUBJECT INDEX, VOLUME 54

Abdomen
  blunt trauma
    common bile duct transection in, injury mechanism and management, case report, 781
    contrast material extravasation on contrast-enhanced helical CT, treatment choice, time, and outcome effects, 164
    duodenal perforation after, sports-related, early diagnosis significance, case report, 791
    focused assessment with sonography for trauma efficacy in screening for, 52
    management and outcome, solid organ injury multiplicity influence on, 925
    transferrin-bound iron in, electron paramagnetic resonance analysis, 574
    urinothorax from missed uretero-pelvic junction avulsion, case report, 187
  open, closure with bilateral bipedicle anterior abdominal skin flaps and retrorectus prosthetic mesh repair of ventral hernias, 1083
  penetrating trauma, shotgun wound, peritoneal lavage for detection of intraabdominal injury after, 329
  severe trauma, interventional radiology in damage control laparotomy and, 171
  traumatic multiple pseudoaneurysms of intrasplenic artery, case report, 1006
Abdominal aorta, air gun injury to, case report and literature review, 1235
Abdominal compartment syndrome, primary/secondary, early prediction of, multiple organ failure development and, 848
Acetabular development, development and injury of triradiate cartilage and, children, literature review, 1245
Acetylsalicylic acid, thromboxane release after tourniquet ischemia, 986
Achilles tendon, rupture, functional treatment *vs.* early immobilization after repair, 1171
Adeno-associated virus vector, gene transfer into human keloid tissue with, 569
Adenosine triphosphate, cellular energetics in hemorrhagic shock and, S169
Adenovirus, gene therapy for cultured keratinocytes, wound healing effects, 72
Adhesion molecules, expression of, in polymorphonuclear leukocytes, in severe injury, 114
Adrenal gland injuries, isolated, after penetrating trauma, case report, 364
Advanced Trauma Life Support
  fluid resuscitation strategies in the Israeli Army, S39
  skills, factors affecting attrition of, 835
Adverse drug events, in trauma patients, 337
Age
  gender association with mortality after trauma and, 464
  lower extremity fractures relation with, in frontal motor vehicle crashes, 261
Air gun injury, to abdominal aorta, case report and literature review, 1235
Air gun pellet, heart injuries and, case report and literature review, 1242
Airbags, deployment of, head injuries in motor vehicle crashes and, 266
Airway management, prehospital, in severe traumatic brain injuries, children, S244
Alcohol use
  changes in after trauma, 990
  hazardous drinking in trauma patients during one year after injury, 707
  trauma patient participation in screening for, 701
American College of Surgeons, verification impact on trauma outcomes, 1041
Amputation, unilateral transfemoral, long-term follow-up of Vietnam veterans, 718
Analgesia
  acute pain management in multiple rib fractures, 615
  endogenous opioid, in hemorrhagic shock, S126
Anesthesia, regional, in multiple rib fractures, 615
Aneurysm, traumatic false, of pancreatic artery, embolization for management, case report, 788
Angioembolization, grades IV/V hepatic injuries, operative management and outcomes, 647
Angiography, pulmonary, pulmonary embolism diagnosis and, 472
Angioplasty
  percutaneous transluminal coronary, in myocardial infarction after penetrating trauma, 1000
  transbrachial balloon, compression and stenosis of common iliac artery stent with leg ischemia after pelvic crush injury, case report, 190
Anticoagulation
  in deep venous thrombosis, expedited discharge after, 232
  minor head injury, without neurologic abnormality, time to deterioration in, elderly patients, 492
Antiseizure prophylaxis, after severe traumatic brain injuries, children, S307
Aorta, injury, hemorrhage after, hemostatic dressing comparison, 280
Apnea, severe head injury-induced, intracranial pressure response to, 550
Apoptosis
  lipoxygenase and cyclooxygenase role in inhibition of, 91
  polymorphonuclear leukocytes death after exposure to resuscitation fluids, 1065
Arteriogram, bleeding pelvic fracture, comparison with external fixation, 437
Arteriovenous fistula, Greenfield filter, in high-risk trauma patients, 536
Avulsion fracture, of posterior cruciate ligament, surgical and postoperative management, 516
Axilla, axillary artery transection after blunt trauma, case report, 203
Axillary artery, transection of, after blunt trauma, case report, 203

Barbiturates, intracranial pressure control in severe traumatic brain injuries, children, S284
Blast injuries, combat-related, land mine, unilateral transfemoral amputation after, long-term follow-up of Vietnam veterans, 718
Blood pressure
  rebleeding after resuscitation in aortic injury, swine, S110
  resuscitation of, in severe traumatic brain injuries, children, S247
Blood transfusion
  allogeneic, postoperative bacterial infection risks, meta-analysis, 908
  outcome in trauma and, 898
Blunt trauma
  abdomen
    common bile duct transection in, injury mechanism and management, case report, 781
    contrast material extravasation on contrast-enhanced helical CT, treatment choice, time, and outcome effects, 164
    focused assessment with sonography for trauma efficacy in screening for, 52
  abdominal
    management and outcome, solid organ injury multiplicity influence on, 925
    urinothorax from missed uretero-pelvic junction avulsion and, case report, 187
  axillary artery transection after, case report, 203
  cardiac
    clinical characteristics and outcomes correlation with scoring, 509
    electrocardiography and serum troponin I levels as predictors of, 45
    operative intervention requirements, case reports, 286
  cervical spine injury, wooden crutches as adjunct in radiographic evaluation, 1250
  chest
    heart and lung contusion evaluation, 744
    pulmonary pseudocyst, diagnosis and treatment of, 737
  duodenum, management in children, 640
  hollow viscus injury incidence, multi-trauma center trial, 289
  impaled fractured rib, case report, 1035
  innominate artery transection secondary to, case report, 202

intrahepatic bile duct injury, segmental hepatic atrophy and, 1225
perforated small bowel, sensitivity of diagnostic techniques in, multi-trauma center trial, 295
spleen, impact on nonoperative management, 1131
thoracic aorta injury, risk factors for, in motor vehicle crashes, 655
transferrin-bound iron in, electron paramagnetic resonance analysis of, 574
Body mass index, injury patterns in motor vehicle crashes and, 1090
Bone mineral density, age relation to lower extremity fractures in frontal motor vehicle crashes, 261
Book reviews
Critical Care Focus 7: Nutritional Issues, 419
Intensive Care in Neurosurgery, 798
Internal Fixation in Osteoporotic Bone, 201
Spine Surgery: Tricks of the Trade, 797
Bowel ischemia, splenectomy as cause of portal venous system thrombosis and, 193
Brachial diplegia, after hemorrhagic shock, 183
Brachial plexopathy, after subclavian vein catheterization, case report, 786
Bradykinin B_2 antagonist, neurologic outcome effects in closed head injury and ethanol intoxication model, 881
Brain injuries
mild traumatic, cognitive deficits after, within-category naming role in identification of, 888
nonlethal, prehospital endotracheal intubation effects on outcome, 307
severe traumatic
antiseizure prophylaxis after, children, S307
barbiturates for intracranial pressure control in, children, S284
blood pressure and oxygenation in, S247
cerebral perfusion pressure in, children, S266
cerebrospinal fluid drainage role in treatment, children, S273
corticosteroids role in treatment, children, S295
critical pathway for intracranial hypertension in, children, S300
guidelines for acute medical management, S237
infants, children and adolescents, S236
hyperosmolar therapy role in, children, S275
hyperventilation role in management of, children, S280
intracranial hypertension treatment thresholds, children, S254
intracranial pressure monitoring indications, children, S254
intracranial pressure monitoring technologies, S263
nutritional support in, children, S303
paramedic rapid sequence intubation effects on outcome, 444
prehospital airway management, children, S244
sedation and neuromuscular blockade in, children, S269
surgical treatment of intracranial hypertension in, children, S291
temperature control role after, children, S288
trauma systems and the neurosurgeon, S240
traumatic
hypothermia, hypoxia, and hypoperfusion as outcome predictors in, 312
sexual dimorphism influence on outcome, 689
Bronchoalveolar lavage, ventilator-associated pneumonia treatment and, in burn intensive care unit, 633
Burn injuries
actin anchoring protein redistribution and F-actin stress fiber formation in endothelial cells after, 81
acute calvarial, management in children, 765
fluid derived from wounds, angiogenic and proliferative activity, differentiation with surgical fluids, 1205
hypermetabolism, catabolism, and sepsis after, excision and enteral feeding effects on, 755
military and tactical solutions, S207
partial-thickness, leukocyte adhesion inhibition with monoclonal antibody to intercellular adhesion molecule-1 for treatment of, 950
sepsis and organ dysfunction after, risk factors and time course of, 959
split-thickness skin graft success, factors affecting, in modern burn unit, 562
stress-induced hyperglycemia after, metformin effects, 555

Calvarial burn, acute, management in children, 765
Career choices, surgical resident exposure to trauma, 1
Casualties
battlefield, in Afghanistan, treatment outcomes, 814
combat-related
fluid resuscitation training for, S20
initial management of fluid resuscitation in, S52
medical and tactical management (editorial), S2
modern, fluid resuscitation in, S46
profile of, S13
mass, September 11, 2001, New York City hospitals surgical response to, 147
Catabolism, after severe burn injury, excision and enteral feeding effects on, 755
Catecholamine surge, severe head injury-induced, intracranial pressure response to, 550
Cellular energetics, in hemorrhagic shock, adenosine triphosphate restoration to cells and, S169
Cerebral perfusion pressure
in head injury, femoral nailing effects on, 1166
in severe traumatic brain injuries, children, S266
Cerebrospinal fluid drainage, role in treatment of severe traumatic brain injuries, children, S273
Cervical spine, wooden crutches as adjunct in radiographic evaluation of, 1250
Chest
blunt trauma
heart and lung contusion evaluation, 744
myocardial contusion after, case reports, 286
pulmonary pseudocyst, diagnosis and treatment of, 737
tension pneumothorax, cardiac tamponade after needle decompression of, case report, 610
tracheobronchial disruption, repair of, case report and literature review, 369
Child abuse, rib fractures as positive predictive value as indicator of, 1107
Children
acute calvarial burn injury, management techniques, 765
acute injury, hypokalemia in, 197
blunt duodenum trauma, management of, 640
glenohumeral joint fracture-dislocation, case report, 372
gunshot wounds, incidence and severity at level I trauma centers, 1102
intracranial hypertension, surgical treatment of, S291
laparotomy, predicting need for, ultrasound score role, 503
pelvic fractures, comparison with adults, 1146
restrained, in side-impact motor vehicle crashes, injury patterns in, 1094
severe traumatic brain injuries
antiseizure prophylaxis after, S307
barbiturates for intracranial pressure control in, S284
blood pressure and oxygenation in, S247
cerebrospinal fluid drainage role in treatment, S273
corticosteroids role in treatment of, S295
critical pathway for intracranial hypertension in, S300
guidelines for acute medical management, S236, S237
hyperosmolar therapy role in, S275
hyperventilation role in management, S280
intracranial hypertension treatment thresholds, S254
intracranial pressure monitoring indications in, S254
nutritional support in, S303
prehospital airway management in, S244
sedation and neuromuscular blockade in, S269
temperature control role after, S288
triradiate cartilage, development and injury of, acetabular development and, literature review, 1245
Chitosan, hemostatic dressing, blood loss and survival in venous hemorrhage in hepatic injury, 177

Circulatory arrest, hypothermia, resuscitation of dogs after 2 hours, S177
Coagulation profile, in hemorrhagic shock and resuscitation, S68
Coagulopathy
acute traumatic, as injury severity marker, 1127
hypertonic saline resuscitation for hemorrhagic shock effects on incidence of, 121
interventional radiology in damage control laparotomy and, 171
recent developments in European colloid solutions and, S26
Cognitive deficits, after mild traumatic brain injuries, within-category naming role in identification of, 888
Colloid solutions
crystalloids and, in trauma resuscitation, overview of controversy in, S82
European, recent developments in, S26
resuscitation supplemented with, physiology of, S75
Colon trauma, penetrating, nonoperative management, case report and literature review, 1228
Common bile duct, transection of, after blunt abdominal trauma, injury mechanism and management, case report, 781
Computed tomography
angiography, pulmonary embolism diagnosis and, 472
contrast blush, active bleeding in complex pelvic fracture in child, case report, 799
contrast material extravasation on contrast-enhanced helical, blunt abdominal trauma, treatment choice, time, and outcome effects, 164
penetrating zone II neck injury diagnosis, 61
Computer modeling, dilutional coagulopathy minimization in exsanguinating hemorrhage, 454
Corticosteroids, severe traumatic brain injuries and, children, S295
Craniofacial trauma, skull base trauma and, management of, 1026
Crush injuries/crush syndrome
muscle, review study, S226
pelvic, compression and stenosis of common iliac artery stent with leg ischemia, transbrachial balloon angioplasty effects, case report, 190
Crystalloids, colloids and, in trauma resuscitation, overview of controversy in, S82
Cultural differences, organ donation, culture and policy impact on, 995
Cyclooxygenase, apoptosis inhibition and, 91
Cytoskeleton, actin anchoring protein redistribution and F-actin stress fiber formation in endothelial cells, after thermal injury, 81

Debridement, acute calvarial burn injury, management in children, 765
Dehydroepiandrosterone, endocrine targets in experimental hemorrhagic shock and, S118
Diagnosis, errors in, quality assessment in level I trauma centers, long-term study, 26
Disability, rib fracture, management of, case series, 1058
Disaster, September 11, 2001, New York City hospitals surgical response to, 147
Dislocation
hip, fracture-dislocation and, long-term follow-up study, 520
traumatic bilateral testicular, case report, 1009
Dressings, hemostatic, hemorrhage after aortic injury and, 280
Duodenum
blunt trauma, management in children, 640
perforation of, after blunt abdominal sports injury, early diagnosis significance, case report, 791

Eastern Association for the Surgery of Trauma, practice guidelines, geriatric trauma management, 391
Elderly
anticoagulated minor head injury without neurologic abnormality, time to deterioration in, 492
trauma management, practice guidelines for, 391
traumatic injury, long-term outcomes after, 486
traumatic rib fractures, mortality and pneumonia risks, 478
Electrocardiography, serum troponin I levels and, as predictors of blunt cardiac trauma, 45
Electron paramagnetic resonance, transferrin-bound iron in blunt trauma analysis, 574
Embolization, traumatic false aneurysm of pancreatic artery and, case report, 788
Emergency medical centers, preventable death, Injury Severity Score utility in detection of, 775
Emergency medical services
aeromedical transport service, contribution to health system, 681
out-of-hospital trauma triage criteria, system compliance with, 345
Endocrine targets, in experimental hemorrhagic shock, S118
Endothelial activity, endotoxin-induced, microtubule depolymerization modulation of, 104
Endothelial cells, actin anchoring protein redistribution and F-actin stress fiber formation in, after thermal injury, 81
Endothelium, thrombomodulin expression, in acute respiratory distress syndrome, 731
Endotoxin
administration of, superresistance to systemic hypoxia and, 584
endothelial activity induced by, microtubule depolymerization modulation of, 104
Enoxaparin
venous thromboembolism in spinal cord injuries rehabilitation, preventive role, 1111
venous thromboembolism in spinal cord injuries treatment phase, 1116
Epidemiology
adverse drug events in trauma patients, 337
patient volume relation to mortality in trauma centers, 16
pelvic fractures, children *vs.* adults, 1146
renal injuries, operative management in the U.S., population-based study, 423
Esophagus, penetrating trauma, stab wounds of neck with partial spinal cord transsection and, case report, 612
Ethanol, hypotension and (letter), 1255
Ethanol intoxation, closed head injury and, bradykinin B_2 antagonist effects on neurologic outcome after, 881
Exsanguination, abdominal insufflation for prevention of, 590
Extracorporeal membrane oxygenation, pulmonary and myocardial contusion management with, case report, 1012
Extracorporeal shock waves, nonunion treatment, 936
Eye injuries, open-globe injuries, prognostic significance of classification system, 750

Fatality Analysis Reporting System, evaluation of trauma systems, 1199
Femoral nailing, cerebral perfusion pressure in head injury and, 1166
Femoral shaft
fractures of, open, reimplantation of large segment (letter), 204
interprosthetic fracture of, percutaneous dynamic condylar screw fixation of, case report, 602
Femur
ipsilateral fracture neck of, locked pubic symphysis with, case report, 376
mechanical properties of, implant overlap effects on, 930
Fibrin sealant, hemorrhage after aortic injury, 280
Flutamide, endocrine targets in experimental hemorrhagic shock and, S118
Focused assessment with sonography for, trauma, efficacy in screening for blunt abdominal trauma, 52
Foot, severe trauma, orthoplastic management of, review article, 379
Fracture-dislocation
glenohumeral joint, fracture-dislocation of, 2-year-old child, 372
hip, long-term follow-up study, 520
Fractures. *see also* specific type or site
contralateral pelvic and acetabular, traumatic hernia of abdominal wall after, case report, 626
foot and ankle, orthoplastic management of, review article, 379
greater tuberosity of humerus, diagnosing, 713
midfacial, massive oral bleeding after, initial management of, 332
nonunion, extracorporeal shock waves in treatment of, 936
proximal humeral fracture, internal fixation with tubular plates, 536

Gas exchange, low tidal volume effects on, in acute respiratory distress syndrome, recruitment maneuvers role in, 320
Gender considerations
gender association with mortality after trauma, age effects on, 464
sexual dimorphism effects on traumatic brain injuries outcome, 689
Gene therapy, cultured keratinocyte grafts, growth and wound healing effects, 72
Gene transfer, human keloid tissue with adeno-associated virus vector, 569
Glasgow Coma Scale
improving, motor score alone comparison with, 671
prehospital, prediction of hospitalization needs (letter), 628
Glenohumeral joint, fracture-dislocation of, 2-year-old child, case report, 372
Grafts, split-thickness skin, factors affecting success of, in modern burn unit, 562
Greater tuberosity of humerus, isolated fractures of, diagnosing, 713
Greenfield filter, complications associated with insertion of, in high-risk trauma patients, 536
Groin injury, lethal, hemostatic agents analysis in, comparison study, 1077
Gunshot wounds
abdominal, shotgun, peritoneal lavage for detection of intraabdominal injury after, 329
to gravid uterus and fetal injury, anesthetic management (letter), 420
incidence and severity at level I trauma center, 1102
kidney, ex vivo repair and renal autotransplantation after, case report, 606
pellet embolus to middle cerebral artery, case report, 417
retained thoracic missile, bullet removal, case report, 418

HBOC-201, tissue oxygen monitoring after hemorrhagic shock and, comparison with lactated Ringer's solution and hypertonic saline dextran, 242
Head injuries
anticoagulated minor, without neurologic abnormality, time to deterioration in, elderly patients, 492
cerebral perfusion pressure in, femoral nailing effects on, 1166
closed, ethanol intoxication and, bradykinin B_2 antagonist effects on neurologic outcome after, 881
Glasgow Coma Scale, improving, motor score alone comparison with, 671
in motor vehicle crashes, airbag deployment effects on, 266
patients who "talk and die" after, 497
severe, apnea and catecholamine surge induced by, intracranial pressure response to, 550
warfarin use prior to, complications associated with, 842
Health care, sustainability in optimal care and (commentary), 1020
Health care costs, trauma surgeon, charges and reimbursements in rural level I trauma center, 9
Health care services, availability of, motor vehicle crash-related mortality and, 272
Heart
air gun pellet injury, case report and literature review, 1242
blunt trauma
electrocardiography and serum troponin I levels as predictors of, 45
outcomes and clinical characteristics correlation with injury scoring, 509
contusion, blunt chest trauma and, 744
right, air gun pellet embolization to, case report and literature review, 1239
Hemorrhage
arterial, bleeding pelvic fracture, comparison with arteriogram, 437
control on battlefield, tourniquet role in, S221
emergency ventilatory management efficacy in, 1048
exsanguinating, dilutional coagulopathy minimization in, computer simulation, 454
fluid resuscitation in combat-related casualties, S52
life-threatening extremity, tourniquet use in, S219
near-infrared spectroscopy-guided closed-loop resuscitation of, S183
perioperative, hemoglobin-based oxygen carrier resuscitation effects, 915
resuscitation and, animal models for research in, S100
severe liver injury and, surgical management of, case report, 366
venous, hepatic injury and, chitosan-based hemostatic dressing effects on blood loss and survival, 177
Hemostatic agents, analysis of, in lethal groin injury, comparison study, 1077
Heparin
low molecular weight, expedited discharge after anticoagulation in deep venous thrombosis and, 232
venous thromboembolism in spinal cord injuries rehabilitation, preventive role, 1111
venous thromboembolism in spinal cord injuries treatment phase, 1116
Hepatic atrophy, segmental, blunt intrahepatic bile duct injury, 1225
Hepatic injuries, grades IV/V, operative management and outcomes, angioembolization role, 647
Hernia, traumatic, of abdominal wall, after contralateral pelvic and acetabular fractures, case report, 626
Hip, dislocation and fracture-dislocation, long-term follow-up study, 520
Hollow viscus injury
blunt trauma, incidence of, multi-trauma center trial, 289
sensitivity of diagnostic techniques in, multi-trauma center trial, 295
Hospitalization
adverse drug events in trauma patients, 337
prehospital Glasgow Coma Scale for prediction of need for (letter), 628
Humeral shaft fractures
expandable nail system for, 1152
locked nailing in, complications of, 943
Humeral surgical neck nonunion, locked-nail treatment of, 530
Humerus, greater tuberosity of, isolated fractures of, diagnosing, 713
Hydroxyethyl starch, recent developments in European colloid solutions and, S26
Hypercoagulability, systemic, venous thromboembolism in trauma and, 224
Hyperglycemia, stress-induced, after burn injury, metformin effects, 555
Hypermetabolism, after severe burn injury, excision and enteral feeding effects on, 755
Hyperosmolar therapy, severe traumatic brain injuries and, children, S275
Hypertension
hemoglobin-based oxygen carrier resuscitation in perioperative hemorrhage and, 915
intraabdominal, abdominal compartment syndrome and multiple organ failure development, 848
intracranial
critical pathway for, in severe traumatic brain injuries, children, S300
surgical treatment of, children, S291
treatment thresholds, in children with severe traumatic brain injuries, S254
Hyperventilation, severe traumatic brain injury management and, children, S280
Hypokalemia, in acutely injured children, 197
Hypoperfusion
as outcome predictor in traumatic brain injuries, 312
splanchnic, acute respiratory distress syndrome and multiple organ failure induced by hemorrhagic shock, 219
Hyporesponsiveness, vascular, to norepinephrine, crystalloid and colloid resuscitation effects on, S159
Hypotension
ethanol effects on (letter), 1255
syndrome of irreversible shock, vasopressin deficiency in, S149
Hypothermia
circulatory arrest and, resuscitation of dogs after 2 hours, S177
as outcome predictor in traumatic brain injuries, 312
Hypoxia
as outcome predictor in traumatic brain injuries, 312
systemic, superresistance to, sublethal endotoxin administration and, 584

Immobilization, in tension, Achilles tendon rupture, functional treatment *vs.* early immobilization after repair, 1171
Immunosuppression, postoperative bacterial infection risks after allogeneic blood transfusion, meta-analysis, 908
Impalement, thoracic plank, case report, 1036
Infection
bacterial, postoperative, allogeneic blood

transfusion effects on risk of, meta-analysis, 908
isolated pulmonary mucormycosis, in patient with multiple injuries, case report and literature review, 1016
Inflammation
hypertonic saline in microcirculation and, S133
lipoxygenase and cyclooxygenase role in inhibition of, 91
red cell substitute resuscitation effects on postinjury hyperinflammatory response, 133
Inflammatory response, systemic/pulmonary, in hemorrhagic shock, hypertonic saline effects on, 1137
Inflammatory response syndrome, systemic, NFκB expression in primed polymorphonuclear leukocytes in, 253
Injuries. *see also* specific types or sites
alcohol-related, hazardous drinking in trauma patients during one year after injury, 707
children, acute injury, hypokalemia in, 197
crush injuries/crush syndrome, muscle, review study, S226
missed
quality assessment in level I trauma centers, long-term study, 26
tertiary trauma survey development effects on prevalence, 38
multiple, isolated pulmonary mucormycosis, case report and literature review, 1016
Injury prevention
injury mortality rate and, in level I trauma centers, 66
organ injuries, after hemorrhagic shock and resuscitation, strategies for, S203
Injury risk, frontal motor vehicle crashes, occupant restraint systems association with, 1182
Injury severity
acute traumatic coagulopathy as marker of, 1127
head injuries, patients who "talk and die" after, 497
Injury Severity Score
blunt cardiac trauma, clinical characteristics and outcomes correlation with scoring, 509
prehospital trauma systems effects on outcomes, in low-income countries, 1188
utility in detection of preventable death, 775
Innominate artery transection, secondary to blunt trauma, case report, 202
Insufflation, abdominal, exsanguination prevention and, 590
Intensive care unit, burn, bronchoalveolar lavage effects on treatment of ventilator-associated pneumonia, 633
Intracellular organisms, correlation with quantitative endotracheal aspirate, 141
Intracranial pressure
monitoring indications, in severe traumatic brain injuries, children, S254
monitoring technologies, S263
severe head injury-induced apnea and catecholamine surge, 550
Intramedullary nail, mechanical properties of femur, implant overlap effects on, 930
Intrasplenic artery, traumatic multiple pseudoaneurysms of, case report, 1006
Intubation
endotracheal, prehospital, outcome in nonlethal brain injuries, 307
rapid sequence, paramedic-administered, severe traumatic brain injury, outcome effects, 444
Ischemia, tourniquet, acetylsalicylic acid for thromboxane release prevention after, 986

Jehovah's Witnesses, mortality risk after major trauma, 967

Keloid, gene transfer into, with adeno-associated virus vector, 569
Keratinocytes, cultured, gene therapy, wound healing effects, 72
Kidney injuries, operative management in the U.S., population-based study, 423

Laparotomy
damage control, interventional radiology role in, 171
emergency, in rural setting, before transfer to trauma center, 823
nontherapeutic, rate of, peritoneal lavage as replacement for (letter), 204
predicting need in pediatric trauma, ultrasound score role, 503
Leukocyte adherence, with monoclonal antibody to intercellular adhesion molecule-1, partial-thickness burn injuries and, 950
Leukocytes, polymorphonuclear
adhesion molecule expression, in severe injury, 114
death of, after resuscitation fluid exposure, 1065
nuclear factor-κB expression in, in systemic inflammatory response syndrome, 253
Lipoxygenase, apoptosis inhibition and, 91
Liver
cirrhosis, in blunt splenic injury, impact on nonoperative management, 1131
injuries
severe, surgical management of, case report, 366
venous hemorrhage and, chitosan-based hemostatic dressing effects on blood loss and survival, 177
Locked nailing, in humeral shaft fractures, complications of, 943
Loss of consciousness, warfarin use prior to trauma, complications associated with, 842
Lower extremity
Achilles tendon rupture, functional treatment *vs.* early immobilization after repair, 1171
closed tibial fracture, microcirculatory derangement in periosteum and skeletal muscle after, 979
fractures, age relation to incidence, in frontal motor vehicle crashes, 261
midshaft femur fracture, ultrasound role in diagnosing, case report, 800
Lung
contusion, blunt chest trauma and, 744
histology of, hypertonic saline resuscitation in hemorrhagic shock, 121
injuries, acute, low tidal volume effects on gas exchange in, recruitment maneuvers role in, 320
recruitment, rationale for, in acute respiratory distress syndrome, current opinion, 326
zymosan-induced injury, endothelial thrombomodulin expression in, 731

Man-in-the-barrel syndrome, after hemorrhagic shock, 183
Medical education
surgical resident exposure to trauma and, 1
surgical resident training, trauma management and, 161
Metformin, stress-induced hyperglycemia after burn injury, 555
Metoclopramide, endocrine targets in experimental hemorrhagic shock and, S118
Microcirculation, hypertonic saline in, inflammation effects, S133
Microcirculatory derangement, in periosteum and skeletal muscle, after closed tibial fracture, 979
Microparticles, polymorphonuclear leukocyte-derived, expression in adhesion molecules, in severe injury, 114
Middle cerebral artery, shotgun pellet embolus to, case report, 417
Mortality
Fatality Analysis Reporting System evaluation of trauma systems, 1199
head injuries, patients who "talk and die" after, 497
injury, injury prevention effects on rate of, in level I trauma centers, 66
patient volume relation to, in trauma centers, 16
rate of, gender association with mortality after trauma, age effects on, 464
risks, Jehovah's Witnesses, after major trauma, 967
trauma surgeon caseload effects on, 829
traumatic rib fractures in elderly, risks for, 478
war-related, reduction of through technology (letter), 1037
Motor vehicle crashes
blunt thoracic aorta injury risks in, 655
body mass index influence on injury patterns, 1090
frontal
age relation to lower extremity fractures in, 261
occupant restraint systems and injury risk association in, 1182
head injuries, airbag deployment effects on, 266
innominate artery transection secondary to blunt trauma, case report, 202
midshaft femur fracture, ultrasound role in diagnosing, case report, 800

mortality related to, prehospital/hospital-based resource availability association with, 272
motorcycle, traumatic bilateral testicular dislocation, case report, 1009
side impact, injury patterns to restrained children, 1094
tension pneumothorax with pneumopericardium, case report, 1254
thoracic plank impalement, case report, 1036
traumatic tension urohemothorax, case report, 1253
Mucormycosis, isolated pulmonary, in patient with multiple injuries, case report and literature review, 1016
Multiple organ dysfunction/failure
acute respiratory distress syndrome and, endothelial thrombomodulin expression in, 731
after burn injury, risk factors and time course of, 959
development of, primary/secondary abdominal compartment syndrome and, 848
red cell substitute resuscitation effects on postinjury hyperinflammatory response, 133
Myocardial contusion
after blunt chest trauma, case reports, 286
pulmonary contusion and, extracorporeal membrane oxygenation for management of, case report, 1012
Myocardial infarction, percutaneous transluminal coronary angioplasty in, after penetrating trauma, 1000

Navicular body fractures, bilateral, case report, 1231
Neck
penetrating injury, zone II, CT contribution to physical examination for diagnosis of, 61
tracheobronchial disruption, repair of, case report and literature review, 369
Necrosis, polymorphonuclear leukocytes death after exposure to resuscitation fluids, 1065
Nephrectomy, kidney injuries, operative management in the U.S., population-based study, 423
Neuromuscular blockade, in severe traumatic brain injuries, children, S269
Neurosurgeon, pediatric severe traumatic brain injuries and, S240
Neutrophils, fluid resuscitation in combat-related casualties, S52
Norepinephrine, vascular hyporesponsiveness to, crystalloid and colloid resuscitation effects on, S159
Nosocomial infection, blood transfusion association with outcome in trauma and, 898
Nuclear factor-κB, expression in primed polymorphonuclear leukocytes in systemic inflammatory response syndrome, 253
Nutritional support, in severe traumatic brain injuries, children, S303

Opioid analgesia, endogenous, in hemorrhagic shock, S126
Oral bleeding, massive, after midfacial fracture, initial management, 332
Organ donation, culture and policy impact on, trauma center comparison, 995
Organ dysfunction, after burn injury, risk factors and time course of, 959
Organ injuries, solid, multiplicity of, influence on management and outcome of blunt abdominal trauma, 925
Osteoarthritis
hip fracture-dislocation, long-term follow-up study, 520
Schatzker posttraumatic, arthroscopically assisted osteosynthesis for tibial plateau fractures and, 356
Osteoporosis
age relation to lower extremity fractures in frontal motor vehicle crashes, 261
humeral shaft fracture, expandable nail system for, 1152
Osteosynthesis
arthroscopically assisted, in tibial plateau fractures, 356
proximal humeral fracture, internal fixation with tubular plates, 536
Outcomes
blood transfusion effects on, in trauma patients, 898
correlation with clinical characteristics, in blunt cardiac trauma, 509
elderly patients, traumatic injury, long-term outcomes after, 486
emergency laparotomy in rural setting, before transfer to trauma center, 823
geriatric trauma management, practice guidelines for, 391
Glasgow Coma Scale, improving, motor score alone comparison with, 671
missed injuries, tertiary trauma survey effects on prevalence, 38
patient volume relation to mortality in trauma centers, 16
severe traumatic brain injury, paramedic-administered rapid sequence intubation, 444
trauma, American College of Surgeons verification impact on, 1041
traumatic brain injuries, hypothermia, hypoxia, and hypoperfusion as outcome predictors in, 312
Oxygen, therapeutics, in trauma and surgery, S193
Oxygen debt criteria, early partial resuscitation after hypovolemic hemorrhagic shock, quantitation of effectiveness, 862
Oxygen extraction ratio, mixed venous oxygen saturation reliability as indicator of, 236
Oxygen monitoring, tissue, after hemorrhagic shock, lactated Ringer's solution, hypertonic saline, and HBOC-201 effects, comparison study, 242
Oxygen saturation, mixed venous, reliability as indicator of oxygen extraction ratio, 236
Oxygenation
resuscitation, in severe traumatic brain injuries, children, S247
tissue, in hemorrhagic shock, hypertonic saline effects on, 1137

Pain
acute, management of, in multiple rib fractures, 615
rib fracture, management of, case series, 1058
Pancreatic artery, traumatic false aneurysm of, embolization for management, case report, 788
Pelvis
bleeding fracture, external fixation *vs.* arteriogram effects, comparison study, 437
complex fracture, active bleeding, CT contrast for identification of, in child, case report, 799
crush injury to, compression and stenosis of common iliac artery stent with leg ischemia, transbrachial balloon angioplasty effects, case report, 190
fractures of, incidence, epidemiology and outcomes, children *vs.* adults, 1146
Penetrating trauma
abdomen, shotgun, peritoneal lavage for intraabdominal injury detection after, 329
air gun injury to abdominal aorta, case report and literature review, 1235
air gun pellet embolization to right heart, case report and literature review, 1239
colon, nonoperative management, case report and literature review, 1228
esophagus, stab wounds of neck with partial spinal cord transsection and, case report, 612
gender association with mortality after trauma, age effects on, 464
gunshot wound to gravid uterus and fetal injury, anesthetic management (letter), 420
hypotension from, hypertonic saline as fluid resuscitation in, S144
isolated adrenal gland injury from, case report, 364
kidney, ex vivo repair and renal autotransplantation after, case report, 606
neck, zone II, CT contribution to physical examination for diagnosis of, 61
open-globe injuries, prognostic significance of classification system, 750
percutaneous transluminal coronary angioplasty in myocardial infarction after, 1000
retained thoracic missile, bullet removal, case report, 418
shotgun pellet embolus to middle cerebral artery, case report, 417
thoracic plank impalement, case report, 1036
Periosteum, microcirculatory derangement, after closed tibial fracture, 979
Peritoneal lavage
intraabdominal injury detection after abdominal shotgun wound, 329
as replacement for nontherapeutic laparotomy (letter), 204

Physical examination, CT scan and, penetrating zone II neck injury diagnosis, 61
Pneumonia
posttraumatic ventilator-associated, anatomic and physiologic parameters for prediction of, 724
traumatic rib fractures in elderly, risks for, 478
ventilator-associated
bronchoalveolar lavage effects on treatment of, in burn intensive care unit, 633
intracellular organisms in polymorphonuclear cells in diagnosis, 141
Pneumopericardium, with tension pneumothorax, motor vehicle crash-related, case report, 1254
Pneumoperitoneum, abdominal insufflation for prevention of, 590
Pneumothorax, tension
cardiac tamponade after needle decompression of, case report, 610
with pneumopericardium, motor vehicle crash-related, case report, 1254
Posterior cruciate ligament, avulsion fracture of, surgical and postoperative management, 516
Practice guidelines
geriatric trauma management, 391
severe traumatic brain injury, guidelines for acute medical management, infants, children and adolescents, S236
Pregnancy, gunshot wounds to gravid uterus and fetal injury, anesthetic management (letter), 420
Prehospital care
airway management in severe traumatic brain injuries, children, S244
availability of, motor vehicle crash-related mortality and, 272
endotracheal intubation effects on outcome in nonlethal brain injury, 307
improving in rural areas of low-income countries (editorial), 1197
out-of-hospital trauma triage criteria, system compliance with, 345
severe traumatic brain injury, paramedic rapid sequence intubation effects on outcome, 444
Preventable death
detection, Injury Severity Score utility in, 775
in voluntary trauma system, 663
Proximal humeral fracture, internal fixation with tubular plates, 536
Pseudarthrosis, extracorporeal shock waves for nonunion treatment, 936
Pseudoaneurysms, traumatic multiple, of intrasplenic artery, case report, 1006
Pseudocyst, pulmonary, diagnosis and treatment of, 737
Pubic symphysis, locked, ipsilateral fracture neck of femur, case report, 376
Pulmonary artery injuries, cardiac tamponade after needle decompression of, case report, 610
Pulmonary contusion, myocardial contusion and, extracorporeal membrane oxygenation for management of, case report, 1012
Pulmonary embolism
CT-proven, disappearing thrombus on duplex resulting in, case report, 627
Greenfield filer insertion, complications associated with, in high-risk trauma patients, 536
posttraumatic, CT angiography for diagnosis of, 472
Pulmonary mechanics, acute respiratory distress syndrome, low tidal volume effects on gas exchange in, recruitment maneuvers role in, 320

Quality assessment, disease and provider complications analysis in level I trauma centers, long-term study, 26
Quality of care, multiple trauma care quality in trauma centers, regular *vs.* on-call service, 973
Quality of life, elderly patients, traumatic injury, long-term outcomes after, 486

Radiography, cervical spine evaluation, wooden crutches as adjunct in, 1250
Radiology, interventional, in damage control laparotomy, 171
Receptor antagonist, endocrine targets in experimental hemorrhagic shock and, S118
Red cell substitute, resuscitation with, postinjury hyperinflammatory response effects, 133
Relative value unit, trauma surgeon, charges and reimbursements in rural level I trauma center, 9
Renal failure, hypertonic saline resuscitation for hemorrhagic shock effects on incidence of, 121
Renal injuries
operative management in the U.S., population-based study, 423
penetrating trauma, ex vivo repair and renal autotransplantation after, case report, 606
Research
endocrine targets in experimental hemorrhagic shock, S118
hemorrhage and resuscitation in animal models for, S100
systemic review, research topic identification, trauma management and, 595
trauma, blood substitutes and, experimental models, S106
Resident, surgical, exposure to trauma, 1

hypertonic saline resuscitation for hemorrhagic shock effects on incidence of, 121
low tidal volume effects on gas exchange in, recruitment maneuvers role in, 320
lung recruitment rationale in, current opinion, 326
post-hemorrhagic shock mesenteric lymph effects in neutrophil-mediated injury, 219
Restraint systems, association with injury risk in frontal motor vehicle crashes, 1182
Resuscitation
blood pressure at which rebleeding occurs after, in swine with aortic injury, S110
burn trauma, military and tactical solutions, S207
circulatory arrest and hypothermia and, in dogs after 2 hours, S177
colloid-supplemented, physiology of, S75
crystalloid and colloid, vascular hyporesponsiveness to norepinephrine and, S159
earl partial, after hypovolemic hemorrhagic shock, oxygen debt criteria quantification of effectiveness, 862
emergency ventilation efficacy in hemorrhage and, 1048
fluid
after hemorrhagic shock, tissue oxygen monitoring during, lactated Ringer's solution, hypertonic saline, and HBOC-201 effects, comparison study, 242
in Canadian Forces, S36
combat-related casualty, conference introduction and overview, S7
combat-related casualty and (editorial), S2
current and future management, S231
endpoints in hemorrhagic shock, S63
hypertonic saline as, in hypotension from penetrating trauma, S144
initial management in combat casualties, S52
in modern combat-related casualties, S46
polymorphonuclear leukocytes death after exposure to, 1065
Ringer's ethyl pyruvate solution as, in sepsis and hemorrhagic shock, S141
small-volume for combat environment, S43
strategies in the Israeli Army, S39
training for combat lifesavers, S20
trauma systems and patient survival, S31
volume kinetics for optimization of, S155
hemoglobin-based oxygen carrier, in perioperative hemorrhage, 915
hemorrhage and, animal models for research in, S100
hemorrhagic shock and
coagulation profile in, S68
organ injury prevention strategies after, S203
hypertonic, physiologic mechanisms and trauma care recommendations, S89
hypertonic saline, in hemorrhagic shock, ARDS, coagulopathy, and renal failure incidence and, 121
near-infrared spectroscopy role in, S199
near-infrared spectroscopy-guided closed-loop, of hemorrhage, S183
red cell substitute, postinjury hyperinflammatory response effects, 133
trauma, crystalloids and colloids, overview of controversy in, S82
Rib

fracture, pain and disability, management, case series, 1058
fractured, impaled, case report, 1035
Rib fractures
elderly trauma patients, mortality and pneumonia risks, 478
multiple, acute pain management in, 615
positive predictive value as indicator of nonaccidental trauma, children, 1107
Ringer's ethyl pyruvate solution, as resuscitation fluid in hemorrhagic shock, S141

Saline, hypertonic
fluid resuscitation efficacy in hypotension from penetrating trauma, S144
physiologic mechanisms of hypertonic resuscitation and, S89
systemic/pulmonary inflammatory response and tissue oxygenation in hemorrhagic shock and, 1137
tissue oxygen monitoring after hemorrhagic shock and, comparison with lactated Ringer's solution and HBOC-201, 242
Saturation, mixed venous, reliability as indicator of oxygen extraction ratio, 236
Scarring, keloid and hypertrophic scar-derived fibroblasts, dietary compounds inhibition of, 1212
Scrotum, traumatic bilateral dislocation of testicles and, case report, 1009
Sedation, in severe traumatic brain injuries, children, S269
Sepsis
after burn injury, risk factors and time course of, 959
after severe burn injury, excision and enteral feeding effects on, 755
endotoxin-induced, microtubule depolymerization modulation of, 104
Ringer's ethyl pyruvate solution as resuscitation fluid in, S141
Sex steroids, endocrine targets in experimental hemorrhagic shock and, S118
Sexual dimorphism, traumatic brain injuries outcome and, 689
Shock
hemorrhagic
acute respiratory distress syndrome and multiple organ failure induced by, splanchnic hypoperfusion role in, 219
blood transfusion and, outcome in trauma and, 898
cellular energetics in, adenosine triphosphate restoration to cells and, S169
colloid-supplemented resuscitation, physiology of, S75
emergency ventilation efficacy in, 1048
endogenous opioid analgesia in, S126
experimental, endocrine targets in, S118
fluid resuscitation and patient survival in trauma systems, S31
fluid resuscitation endpoints in, S63
hypertonic saline resuscitation effects on ARDS, coagulopathy, and renal failure incidence, 121
man-in-the-barrel syndrome after, 183
near-infrared spectroscopy role in resuscitation of, S199
resuscitation and coagulation profile in, S68
organ injury prevention strategies after, S203
Ringer's ethyl pyruvate solution as resuscitation fluid in, S141
tissue oxygen monitoring during, lactated Ringer's solution, hypertonic saline, and HBOC-201 effects, comparison study, 242
tissue oxygenation and systemic and pulmonary inflammatory response in, hypertonic saline effects on, 1137
hypovolemic hemorrhagic, early partial resuscitation after, oxygen debt criteria quantification of effectiveness, 862
syndrome of irreversible, vasopressin deficiency in, S149
Side impact syndrome, motor vehicle crashes, injury patterns to restrained children, 1094
Skeletal muscle, microcirculatory derangement, after closed tibial fracture, 979
Skull base trauma, craniofacial trauma and, management of, 1026
Small bowel
blunt trauma, incidence of, multi-trauma center trial, 289
perforated blunt trauma, sensitivity of diagnostic techniques in, multi-trauma center trial, 295
Spectroscopy
near-infrared, role in resuscitation, S199
resuscitation guided by, in hemorrhage, S183
Spinal cord injuries
venous thromboembolism in rehabilitation phase after, heparin *vs.* enoxaparin prophylaxis preventive role, 1111
venous thromboembolism in treatment phase, heparin *vs.* enoxaparin preventive role, 1116
Splenectomy, portal venous system thrombosis after, 193
Splenic injury, blunt, liver cirrhosis impact on nonoperative management, 1131
Sports injuries, duodenal perforation after blunt abdominal injury, early diagnosis significance, case report, 791
Stab wounds, esophagus, with partial spinal cord transsection, case report, 612
Stomach, blunt trauma, incidence of, multi-trauma center trial, 289
Subclavian vein catheterization, brachial plexopathy after, case report, 786
Sulfamylon, wound infection management effects, 770
Suprapubic tube, in urinary bladder rupture, 431
Surgeons
surgical resident, trauma management and, 161
trauma
caseload effects on mortality, 829
charges and reimbursements in rural level I trauma center, 9
craniofacial and skull base trauma, management of, 1026

Surgery
arthroscopically assisted osteosynthesis for tibial plateau fractures, 356
avulsion fracture of posterior cruciate ligament, 516
bleeding pelvic fracture, external fixation *vs.* arteriogram effects, comparison study, 437
craniofacial and skull base trauma, management of, 1026
femoral shaft, interprosthetic fracture of, percutaneous dynamic condylar screw fixation of, case report, 602
humeral shaft fracture, expandable nail system for, 1152
humeral shaft fractures, locked nailing in, complications of, 943
mechanical properties of femur, implant overlap effects on, 930
open femoral shaft fractures, reimplantation of large segment (letter), 204
oxygen therapeutics in, S193
proximal humeral fracture, internal fixation with tubular plates, 536
renal injuries, operative management in the U.S., population-based study, 423
severe foot and ankle trauma, orthoplastic management of, review article, 379
severe liver injury and hemorrhage, surgical management of, case report, 366
surgical neck nonunions, locked-nail treatment for, 530
tibial lengthening, external fixation and secondary internal fixation, 1159
Surgical society meetings, politically correct discussions at (editorial), 199
Systemic review, research topic identification, trauma management and, 595

Tarsal navicular body fractures, bilateral, case report, 1231
Temperature control, after severe traumatic brain injuries, children, S288
Terrorism, September 11, 2001, New York City hospitals surgical response to, 147
Testicles, traumatic bilateral dislocation of, case report, 1009
Thermal injuries. *see* Burn injuries
Thoracic aortic injury, blunt, in motor vehicle crashes, 655
Thromboembolism, venous
in spinal cord injuries rehabilitation, heparin *vs.* enoxaparin prophylaxis preventive role, 1111
in trauma, systemic hypercoagulability and, 224
treatment phase of spinal cord injuries, heparin *vs.* enoxaparin preventive role, 1116
Thrombosis
deep vein, Greenfield filter insertion, complications associated with insertion of, in high-risk trauma patients, 536

deep venous, anticoagulation for, expedited discharge after, 232
portal venous system, splenectomy after, 193
Thromboxane, acetylsalicylic acid for prevention of release of, after tourniquet ischemia, 986
Thrombus, disappearing, on duplex, CT-proven pulmonary embolus and, case report, 627
Tibia
closed fracture of, microcirculatory derangements in skeletal muscle and periosteum after, 979
lengthening of, external fixation and secondary internal fixation, 1159
Tibial plateau, fractures, arthroscopically assisted osteosynthesis for, 356
Tourniquet
hemorrhage control on battlefield and, S221
ischemia, acetylsalicylic acid for thromboxane release prevention after, 986
limb risk in life-threatening extremity hemorrhage, S219
Trachea, intubation of, tracheobronchial disruption after, case report and literature review, 369
Tracheal rupture, iatrogenic, repair of, case report and literature review, 369
Transfusion, red cell substitute resuscitation effects on postinjury hyperinflammatory response, 133
Transportation, patient
aeromedical service, contribution to health system, 681
air transport service, trauma outcomes after discontinuation of (letter), 629
